Mainstreaming Nature-based Solutions in Indonesia
Turning theory into practice

December 10th 2024

Tom Wilms - Witteveen+Bos

Mainstreaming NBS in Indonesia

Turning theory into practice

- Context
- Importance
- Content
- Organisations
- Lessons learned
- Discussion on follow-up, upscaling, synergy

Context

- ▶ There is large momentum for large scale implementation of NBS in Indonesia
 - Ambitions in the RPJMN (National Midterm Development Plan 2025-2029)
- ▶ MoU Water GoI and GoNL
 - And wider Dutch international ambition
- ▶ Ambition of the ADB on NBS

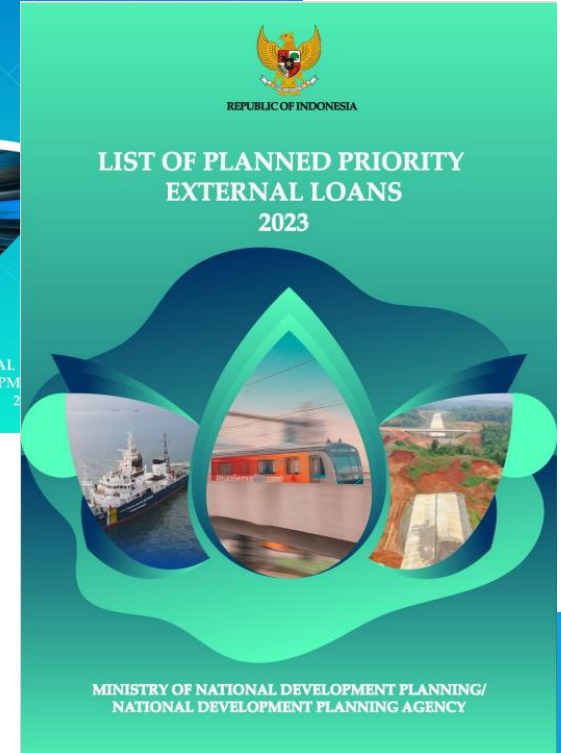

Importance

Indonesian ministries (Bappenas and PU) have the ambition.

- They struggle with the ‘how’
- Projects insufficiently align with government priorities
 - green book
 - blue book
- Government documents (plans, guidelines) do not support NBS

Support with multi-year plans and guidelines are needed to create opportunities for large scale implementation

Content

Deliverables

Guidelines

- Strategic guideline (Bappenas): National Strategic plan for NBS for flood risk
- Technical guideline (PU): Criteria for Planning of Rivers for flood risk

National Midterm Development Plan 2025-2029 - RPJMN (Bappenas)

Content

Timeline

- October – kick-off meeting
- December - mission
- Until March – support preparation of draft guidelines
- Until June – support preparation of final guidelines
- After that
 - support in pilots and projects
 - identification of investment opportunities

Organisations

Indonesia ministries

- ▶ Bappenas – Strategic guideline: National Strategic plan for NBS for flood risk (process)
- ▶ PU - Technical guideline: Criteria for Planning of Rivers for flood risk (product)

Finance institutes

▶ ADB

RVO

Experts

▶ Deltares NL

Deltares Indonesia

▶

RHDHV Indonesia

Lessons learned

- ▶ See each other live
 - Understand each other
 - System understanding
- ▶ Involvement of Bappenas and PU
 - Ensures strategic embedding
 - Institutionalisation
- ▶ Collaboration with ADB
 - Gives momentum and perspective to dialogue
 - Gives the process a tangible end point

Discussion

What are your thoughts regarding

➤ Necessity

➤ Approach

➤ Follow-up and upscaling

➤ Synergy

➤ Future updates
