

# Welcome to meet us at the Netherlands Pavilion during Singapore International Water Week | 15-19 June 2026

At the Netherlands Pavilion, world-leading Dutch water expertise meets global water ambitions.

Discover innovative, integrated solutions for climate resilience, water security and sustainable urban development – developed through strong public-private partnerships.

The Netherlands Pavilion offers a dynamic meeting place for international delegations, policymakers, businesses and knowledge institutes to connect, exchange insights and explore opportunities for collaboration.

Turn shared water challenges into joint solutions.

## Contact details
